Target Audience

The course is aimed at those in-service teachers in the primary, secondary and vocational sectors working with CLIL or are about to apply CLIL in their teaching methodology.

Course Summary

The course introduces the principles of CLIL and analyzes CLIL teaching techniques, including ways of integrating ICT into a CLIL classroom teaching environment. The course also introduces participants to practical online software tools suitable for CLIL, or teaching aids specifically designed for the use of CLIL (Content and Language Integrated Learning).

Preparation

After registration, participants on this course programme will receive:

A pre-course questionnaire which will enable trainers to learn about the participants' teaching backgrounds

Information about the Europass Mobility Certificate

A recommended reading list to prepare participants for various aspects of the course

Information about Malta to prepare teachers for their cultural experience

Objectives

To explore the dimensions of CLIL and get an overview of the application of this discipline

To review practical areas such as the 5 Cs of CLIL, cognition and thinking skills, scaffolding and assessment for CLIL

To analyse the synergies of integrating ICT into a CLIL classroom teaching environment, using hands-on & experiential methods

To enable teachers to design dual-purpose learning materials

To introduce participants to practical online software tools suitable for CLIL, or teaching aids specifically designed for the use of CLIL

Through the application of these tools, to empower teachers and help them prepare teaching materials, especially when annotating texts for students with vocabulary explanations

To experience the cultural heritage of Malta with its bilingual linguistic environment

The CLIL Tools were developed as a result of a POOLS T project - a EU Leonardo Project.

Methodology

This course is taught interactively, with input sessions and collaborative work, both as pair and group project work.

The theory underpinning CLIL is discussed and each of the 5 Cs addressed and explored thoroughly.

Assessment is discussed and participants will set up their own assessment grids.

Sessions help participants set up exercises using online CLIL Tools in a scaffolded setting. Participants are shown and develop their own online interactive exercises.

Tools are explored, analysed and discussed, developing the participants' use of their communication skills in English.

Teachers are asked to reflect on the tools & activities, inviting discussion with regard to their own knowledge & skills, their approach to teaching today's students, and on adaptation of the use of the tools to their teaching & learning situations & contexts.

Exchange of participants' CLIL experiences, ICT and pedagogical knowledge is encouraged through networking and discussion.

Participants' own language skills are developed and feedback given where appropriate.

Participants are also introduced to appropriate websites related to the further development of their teaching skills & personal professional development.

Follow Up

The course ends with an evaluation session, where teachers are asked to reflect upon the value of the knowledge gained on the course.

They are also encouraged in this session to come up with a Personal Development Action Plan, and select tools & activities which they would like to try out in their own classes or projects.

They are invited to join the ETI Teacher Training Facebook community, which allows networking and contact with the trainers and fellow colleagues, and with participants from other courses.

Participants are also encouraged to join communities for the current POOLS Projects, and other ETI-related EU Projects, such as METHODS (Communicative Language Teaching Methods), TOOLS, and CLIL4U.

In addition, participants are given a post-course 3 month subscription to our e-Learning online site to further develop their language knowledge and skills.
