Course Outline

Do you feel your English has gone a bit rusty? Feel you don't have enough confidence in your speaking? Well, English Boost is here for you. Our course includes 25 teaching hours a week and includes a range of tours and activities to keep you highly engaged and talking. You will also get better at different types of talk including chat, storytelling and short presentations.

Each course is unique because we offer you a list of topics to choose from before you arrive and work with you on the course to follow the class's interests and teach the language you are trying to say. We also select and use our material rather than simply following a coursebook. This means that you are sure to meet a wide range of vocabulary and grammar and discuss all kinds of topics with our blend of intelligent conversation and humour. The groups are divided into two broad groups around B1 and B2 levels and we will ask you to do a published online test before you arrive to ensure you are placed at the right level.

Content

We will provide a questionnaire for participants before they arrive to express preferences or make requests which we will try to incorporate into the course, if possible and where there is agreement between participants. This means specific content will vary from course to course. Some topics you might talk about:
